

KAWEESI MATIA
KAMPALA, UGANDA 10308
0705175329
matiakaweesi@gmail.com

Summary

Full-stack developer with strong expertise in AI, backed by a solid foundation in software development. Skilled in building scalable, end-to-end web applications—from intuitive, responsive front-end interfaces to robust back-end systems—while leveraging AI tools and techniques to enhance performance and productivity. Recognized for a strong work ethic, mentoring abilities, and a collaborative mindset. Seeking opportunities to apply full-stack and AI-driven development skills, contribute to innovative projects, and support team growth.

Technical Skills

- **Front-End:** JavaScript, React, Redux, jQuery, HTML5, CSS3
 - **Back-End:** Ruby, Rails, MySQL, Node.js
 - **Tools & Methods:** Git, GitHub, Netlify, Mobile/Responsive Development, TDD, Cursor, Replit, Claude, Copilot
 - **Professional:** Remote Pair-Programming, Teamwork, Mentoring
-

Experience

Full-Stack Developer

Veroskills [Remote,USA] (June 2023-March 2025)

- Developed and maintained full-stack web applications using the **MERN stack (MongoDB, Express.js, React.js, Node.js)**, delivering scalable and responsive solutions.
- Designed and implemented RESTful APIs to handle authentication, data management, and business logic on the backend.
- Built dynamic, reusable, and responsive UI components using React.js and Tailwind CSS to enhance user experience.
- Integrated frontend interfaces with backend services, ensuring seamless data flow and efficient state management.

Full-Stack Development Mentor

Microverse [Remote, USA] (June 2022 – May 2023)

- Mentored and guided junior developers in full-stack development using the MERN stack, helping them build scalable and production-ready applications.
- Conducted code reviews to ensure best practices in JavaScript, React, Node.js, Ruby, and database design, improving code quality and maintainability.

- Provided one-on-one technical coaching, breaking down complex concepts into practical, easy-to-understand solutions.
- Supported learners in debugging, problem-solving, and optimizing application performance across both front-end and back-end systems.

Code Reviewer

Refactory [Uganda] (May 2020 –April 2022)

- Provided detailed code reviews to ensure adherence to best practices and coding standards.
- Mentored junior developers in clean code principles, debugging, and problem-solving.
- Conducted pair-programming sessions to enhance collaborative development skills.

Responsibilities

Notable Projects

- **Recipe App (React):**
Developed an interactive recipe application using React and Tailwind CSS. Implemented features such as recipe categorization, search functionality, and responsive design for seamless user experience.
- **Budget App (Ruby on Rails):**
Created a budget management application with Ruby on Rails. Designed an intuitive interface for users to track income and expenses while generating reports for better financial insights.
- **Blog App (Ruby):**
Built a dynamic blog platform using Ruby. Integrated functionalities for creating, editing, and deleting posts, along with a comment system to encourage user engagement.

Education

- **KYAMBOGO UNIVERSITY** (2014 – 2017)
Bachelor's Degree in Telecommunication Engineering
 - **MICROVERSE** (2022-2024)
Certificate in Software Engineering
 - **VEROSKILLS** (2023-2024)
Certificate in Front-End Development
-

Accomplishments

- Successfully integrated expertise in telecom engineering with software development, bridging both domains to create innovative solutions. Played a key role in developing scalable applications for multiple organizations.
- Mentored aspiring developers to achieve their career goals in software development.

Additional Information

- A team player eager to collaborate with colleagues.
- A leader and innovative problem-solver.
- Excellent communication skills.

Languages

- English

Hobbies

- Reading technical books and conducting research on emerging technologies.
